

# How to Activate Octopus LG

**Step 1.** Connect your box/dongle to PC

**Step 2.** Install the latest version of Octopus LG software

Download: <https://octopusbox.com/en/download/software/>

The screenshot shows the website [octopusbox.com/en/download/software/](https://octopusbox.com/en/download/software/). The page has a dark teal header with the Octopus logo and navigation links: Products, Features, Downloads (active), Help Center, Dealers, Buy Now. Below the header are icons for SOFTWARE and FORUM. The main content area is white and contains a search bar, a 'Latest News' section with three items, a 'Read more' link, and a section titled 'Octopus - is my choice!' with user comments. On the right, there is a 'Software' section listing various tools. The 'Octopus/Octopus LG Installer v2.9.8' is highlighted with a red box, and a red arrow points to it from a comment in the 'Octopus - is my choice!' section.

**Step 3.** Open a folder where Octopus LG software was installed.  
Run Updater.exe (located inside the Octopus LG software folder)

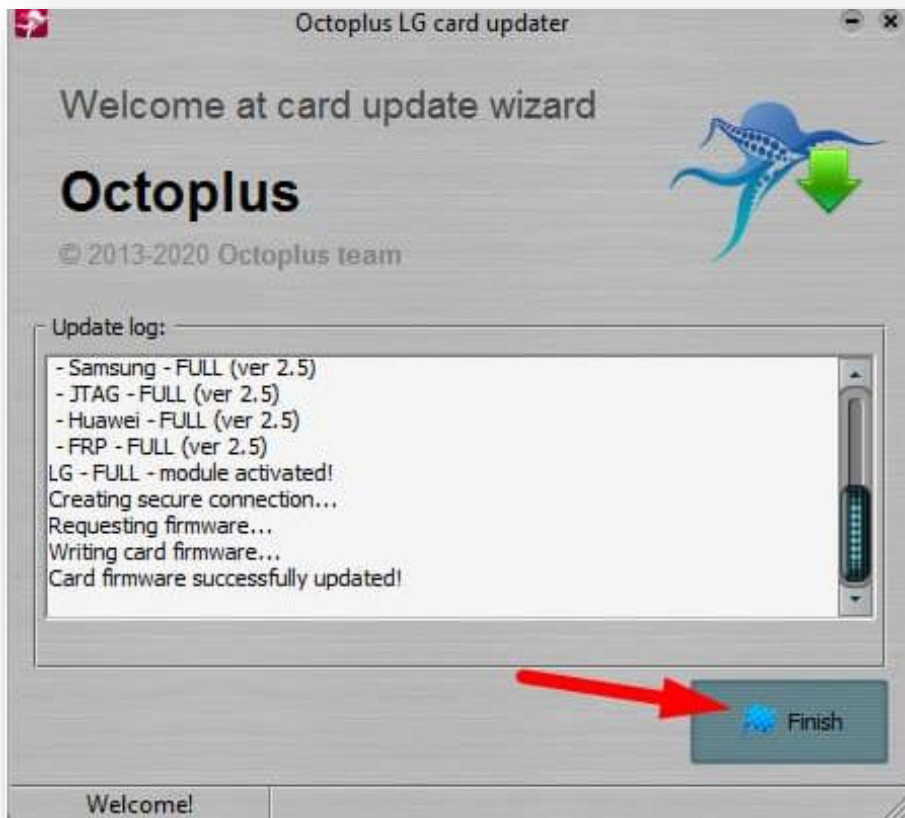

**Step 4.** Choose "I have the activation string" and press "Next"

**Step 5.** Complete the activation process with the activation code you received  
**Hint!** Copy (Ctrl+C) and paste it (Ctrl+V). Press "Next"

**Step 6.** After successful activation (you can see it in the log window), press "Finish" button

**Done!** Now you can launch Octopus LG software and use it straight away!
